

# Large Wheel Book

Choose either the large or small wheel book. Print the appropriate pages onto card-stock. Cut out the two circles. (The base is a bit larger than the cover.) Cut away the extra area on the cover wheel where indicated. Affix pictures of Obama's childhood pets in Indonesia (crocodiles, gibbon, ducks, chickens) onto the base wheel so that they show as the cover wheel is rotated around. Attach both wheels together using a paper fastener in the center.
