

#4 Fold as indicated in steps 1-4. Then cut through all thicknesses on the dotted line, making sure to leave the heavy solid line uncut. When opened, your shape looks like the model to the left. This book is best made with regular thickness copy paper.

#2 Cut off
this strip

Cut out the trifold as one shape and fold into thirds so that the cover is on top. Open the book and use one tree for Barack Obama, Sr., one for Ann Dunham, and one for Barack Obama, Jr. “Barry.”

The next page has a larger book — a double trifold — if you’d like to include even more information about Obama’s parents or possibly his grandparents.
